DOCKET #98N-305 "IRRADIATION IN THE PRODUCTION, PROCESSING AND HANDLING OF FOOD".

Please continue clearly labeling foods which have gone through an irradiation process. "Irradiation" or "irradiated" should specifically appear on these products along with the radura symbol. As a citizen and consumer I feel personally dependent on fair and clear labeling which allows me to make informed decisions about the products I buy. I am also a college professor whose students continually explore their right to information and its power. This is an issue of the right to information.

Please keep this label indefinitely. It should not expire.

Thank you,
Lydia Alvarez
